SOMETHING

What is the problem?

Each year in schools and communities across the United States, there are millions of youth who hurt themselves or others through verbal, physical and digital means. These behaviors can cause youth to experience emotional trauma and physical injury, mental health or wellness issues, stress or anxiety, and/or feelings of being unsafe. Too often the outcome results in self-harm, suicide or homicide.

21%

of high school students are bullied on school property in Pennsylvania each year^[1]

WHAT IS THE SOLUTION?

The Safe2Say Something Anonymous Reporting System teaches youth and adults how to recognize warning signs and signals - especially within social media - of individuals who may be a threat to themselves or others and say something BEFORE it is too late.

Provides an app, website, and 24/7 crisis telephone hotline for youth and adults to submit anonymous tips

Provides training on how to recognize the signs and signals of at-risk behaviors – especially within social media

Works to take every sign and signal seriously; act quickly to get help by talking to a trusted adult

The Facts

In a majority of these acts, youth and adults are witnesses to threats, warning signs, or signals, especially on social media, but do not report or intervene to help the at-risk youth. In fact:

- Approximately, 1 million U.S. students reported being harassed, threatened or subject to other forms of cyberbullying^[2]
- 80% of school shooters told someone of their violent plans. 59% told more than one person^[3]
- 70% of people who complete suicide tell someone of their plans or give some other warning sign^[4]
- A national study found that 37% of threats of violence, bullying, etc. were sent electronically and 28% used social media^[5]

The Reasons

There are many reasons why youth and adults do not say something when they see a warning sign or signal. They do not:

- Understand or know how to recognize warning signs and signals of at-risk behavior
- Believe a threat to be true because “they would never say it publicly if they meant it”
- Want to be labeled, stigmatized, possibly physically threatened as a “snitch”
- Know who to tell or “believe that nothing will be done to help anyhow”
- Think they need to because someone else will say something

How is the Program Sustained?

Safe2Say Something is sustained through our:

- Students Against Violence Everywhere (SAVE) Promise Club or existing student club by embedding Safe2Say Something in the club in order to empower students to carry it forward and keep awareness high within schools
- On-going support, refresher trainings and call-to-action weeks to rally school personnel and student clubs around the Safe2Say Something program
- No cost, in-school awareness materials – posters, table tops, etc. to remind students of the app, website, and 24/7-telephone hotline

SEE IT. REPORT IT.
